

**Winery Visits:**

Santorini Wine Tour Co reserves the right to choose which wine region and appellation to tour on any given day, to maintain a small group professional and leisurely wine experience without being rushed. Due to the overwhelming amount of guests at certain times at various wineries, a relaxed and more private atmosphere is first and foremost our most important aspect to the quality of event for each and every guest.

Depending on the tour you will choose, we will visit 1 or more from our list of associates below based on availability:

**Sigalas Estate**

**Artemis Karamolegos Winery**

All of the wineries we have chosen to work with are worth a visit, and they all are unique; each in its own way! Amazing wines, gorgeous locations and remarkable facilities are supplemented by our Sommelier's expertise making each tour a unique experience, as the majority of them were featured in respected wine magazines such as Wine Spectator, Wine & Spirits, Wine Advocate and many others!!

**Tasting Information:**

The wines served during the tour are mainly whites and dessert wines, as these are the kind of wines the island of Santorini produces.

*This is a gentle note for guests that only drink red wine.*

**Wine consumption:**

Each wine tasting portion complies with the internationally applied wine tasting portions, with respect at the established B.A.C. limits.
